

Employee Guide

HRMS Mobile Application · Your attendance, your leave, your payslips — on your phone.

Whhooohh Path LLP · Android & iOS · Version 1.0 · 8 September 2026

1 What You Can Do

Everybody in the company. Every other role in this set can do all of this as well, and more on top.

Feature	What it means for you
Mark attendance	Check in and check out with your fingerprint. A photo is attached to each punch if you allow the camera.
Apply for leave	Choose the type, the dates and a reason. You see the decision and the approver's note on your own screen.
See your attendance	Every day of the last four months — in time, out time, hours, and whether you were marked late.
Read your payslips	Every month, with gross and net. The full itemised slip and its PDF are in the Portal tab.
Download your letters	Offer, appointment, experience, relieving and employment certificates issued to you.
Track your work	Your tasks, the projects you are on, and the company assets in your hands.
Message HR	A private one-to-one conversation. Nobody else in the company can read it.
Look things up	The staff directory, company policies, the calendar and company notices.

WHAT IS NOT YOURS

See another person's attendance, pay, letters, PAN, Aadhaar or bank details.

Approve leave — including your own. The buttons appear on any pending request, but only HR and management decisions are accepted.

Add or edit anybody's record, run payroll, or open Reports and Settings.

2 Getting Started

Do this once. It takes about two minutes.

1. Install the app from the link your administrator sends you.
2. Before you open it, make sure your phone has a screen lock (PIN, pattern or face) and at least one fingerprint saved in the phone's own settings. The app needs both.
3. Open the app. Type the email address your administrator created for you, and the temporary password they gave you.
4. Tap the eye icon to check what you have typed, then tap Sign in.

- Go to the Check in tab and tap "Set up biometric check-in". Confirm with your fingerprint. You will not have to do this again on this phone.
- Open the Portal tab → your name at the top right → Profile → Change password. Set your own password now.

YOU STAY SIGNED IN

The app remembers you. You will not be asked for a password each morning — only if you sign out, or change phone.

3 Your App

Five tabs run along the bottom of every screen. Whatever you are doing, any part of the app is one tap away.

Tab	What it is for
Home	Today at a glance — are you clocked in, what is waiting on you, and the latest company notice.
Check in	The fingerprint attendance punch. The screen most people open every morning.
Modules	The grid of modules — everything you look things up in.
Messages	Private one-to-one conversations. A red badge means somebody has written to you.
Portal	The full system on a bigger canvas — payroll, reports, settings and everything not built for a small screen.

The two screens you will use every day

HOME SCREEN
Good morning (your initials) the greeting changes with the time of day · tap the circle for your profile
● Not clocked in In — · Out —
[Check in] the button changes to Check out, then View attendance
Leaves pending Open tasks two count tiles · tap either to open it
Quick actions Attendance · Leave · Payslips · More
Latest announcement the newest company notice, first three lines
Home Check in Modules Messages Portal

Home — everything here is a shortcut. Tap it and the app takes you to the screen that does the work.

CHECK IN SCREEN
Attendance your email · Sign out
Today In 09:14 Out —
[camera preview] your face, if you allowed the camera — the photo attached to the punch
[Check in] green · asks for your fingerprint
[Check out] outlined · greyed until you have checked in
Your face and fingerprint stay on this phone.
Home Check in Modules Messages Portal

Check in — the green button asks for your fingerprint; the photo is taken only after it passes.

4 Your Modules

Tap the Modules tab. These are the tiles you will see — found by colour and shape rather than read top to bottom. Tap one and it opens a list; tap < Back to return here.

People	Tasks	Leaves	Payslips
Projects	Attendance	Assets	Policies
Letters	Calendar	Notices	

The module grid, four tiles across, as it appears for your role.

Every module opens the same way: a search box at the top, then rows. Type to narrow the list, pull down to refresh, and tap < Back to leave. Read one and you have read them all.

5 How To Do Each Thing

1. Mark your attendance

1. Tap the Check in tab.
2. Tap the green Check in button.
3. Confirm with your fingerprint when your phone asks.
4. Wait for "Checked in — Verified, photo saved".
5. At the end of the day, come back and tap Check out.

You can also check in from the Home screen — the green button there brings you to the same place.

2. Apply for leave

1. Tap Modules, then the amber Leaves tile.
2. Tap Apply at the top right.
3. Tap the chip for the kind of leave — Casual, Sick, Paid, Work From Home or Comp Off.
4. Edit the two dates. Both are filled with today; for a single day leave them the same.
5. Type a reason. Optional, but it is the first thing your approver reads.
6. Tap Apply. Your request appears at the top of the list with an amber "pending" badge.

If it is refused, the reason your approver wrote replaces the dates on that row — read it there.

3. Check your payslip

1. Tap Modules, then the green Payslips tile.
2. Find the month. Net pay is on the right, gross is in the grey badge.
3. For the full slip with every earning and deduction, open the Portal tab → Payroll → the eye icon on that month.
4. Tap Download PDF to save a copy.

4. Get a copy of a letter

1. Tap Modules, then the amber Letters tile.

2. Tap the letter. It opens as a full document on the company letterhead.
3. Tap Share to send it to yourself by email or WhatsApp.

5. Message HR

1. Tap the Messages tab.
2. Tap the pencil at the top right.
3. Tap the person you want to write to.
4. Type in the box at the bottom and tap the green send button.

A red badge on the Messages tab means somebody has written to you.

6 Your Day, End To End

7 Quick Reference

I want to...	Go here
Mark attendance	Check in tab
Apply for leave	Modules → Leaves → Apply
See if my leave was approved	Modules → Leaves — read the badge
Check my attendance this month	Modules → Attendance
Read my payslip	Modules → Payslips
Download my offer letter	Modules → Letters → tap it → Share
Find a colleague's email	Modules → People

I want to...	Go here
Read a company policy	Modules → Policies
Message HR	Messages tab → pencil
Change my password	Portal tab → Profile
Hand this phone to somebody else	Home → your initials → Remove this device

If something does not work

What you see	What to do
"Invalid email or password"	Tap the eye icon and check what was typed — the keyboard often capitalises the first letter. If it still fails, your account may not be created yet.
"This account is not active"	Your login works but your record has been switched off. Ask HR.
"Set a screen lock on your phone first"	Add a PIN, pattern or password in your phone's settings, then come back.
"Set up Face ID, Touch ID or a fingerprint first"	Save a fingerprint in your phone's own settings, then come back.
The fingerprint box appears and you close it	Nothing is recorded. Tap Check in again.
A number on Home shows a dash (—)	That one item could not be read. Pull the screen down to refresh.
