

Team Lead Guide

HRMS Mobile Application · The task board for your team.

WhhooHh Path LLP · Android & iOS · Version 1.0 · 8 September 2026

1 What You Can Do

Whoever runs a team's day-to-day work. Everything in the Employee guide, plus full control of tasks.

Feature	What it means for you
Own the task board	Create, delete, reassign and re-prioritise any task.
Break work down	Add and remove checklist items inside a task.
Book time in the calendar	Create meetings and deadlines.
See the company dashboard	Headcount, attendance summary and task throughput.

WHAT IS NOT YOURS

Create or edit a project, or change who is on one — that is the Project Manager's.

Everything a Project Manager is denied: people records, leave decisions, payroll, letters, reports and settings.

2 Getting Started

Do this once. It takes about two minutes.

1. Install the app from the link your administrator sends you.
2. Before you open it, make sure your phone has a screen lock (PIN, pattern or face) and at least one fingerprint saved in the phone's own settings. The app needs both.
3. Open the app. Type the email address your administrator created for you, and the temporary password they gave you.
4. Tap the eye icon to check what you have typed, then tap Sign in.
5. Go to the Check in tab and tap "Set up biometric check-in". Confirm with your fingerprint. You will not have to do this again on this phone.
6. Open the Portal tab → your name at the top right → Profile → Change password. Set your own password now.

YOU STAY SIGNED IN

The app remembers you. You will not be asked for a password each morning — only if you sign out, or change phone.

3 Your App

Five tabs run along the bottom of every screen. Whatever you are doing, any part of the app is one tap away.

Tab	What it is for
Home	Today at a glance — are you clocked in, what is waiting on you, and the latest company notice.
Check in	The fingerprint attendance punch. The screen most people open every morning.
Modules	The grid of modules — everything you look things up in.
Messages	Private one-to-one conversations. A red badge means somebody has written to you.
Portal	The full system on a bigger canvas — payroll, reports, settings and everything not built for a small screen.

The two screens you will use every day

HOME SCREEN
Good morning (your initials) the greeting changes with the time of day · tap the circle for your profile
● Not clocked in In — · Out —
[Check in] the button changes to Check out, then View attendance
Leaves pending Open tasks two count tiles · tap either to open it
Quick actions Attendance · Leave · Payslips · More
Latest announcement the newest company notice, first three lines
Home Check in Modules Messages Portal

Home — everything here is a shortcut. Tap it and the app takes you to the screen that does the work.

CHECK IN SCREEN
Attendance your email · Sign out
Today In 09:14 Out —
[camera preview] your face, if you allowed the camera — the photo attached to the punch
[Check in] green · asks for your fingerprint
[Check out] outlined · greyed until you have checked in
Your face and fingerprint stay on this phone.
Home Check in Modules Messages Portal

Check in — the green button asks for your fingerprint; the photo is taken only after it passes.

4 Your Modules

Tap the Modules tab. These are the tiles you will see — found by colour and shape rather than read top to bottom. Tap one and it opens a list; tap ‹ Back to return here.

People	Tasks	Leaves	Payslips
Projects	Attendance	Assets	Policies
Letters	Calendar	Notices	

Every module opens the same way: a search box at the top, then rows. Type to narrow the list, pull down to refresh, and tap < Back to leave. Read one and you have read them all.

5 How To Do Each Thing

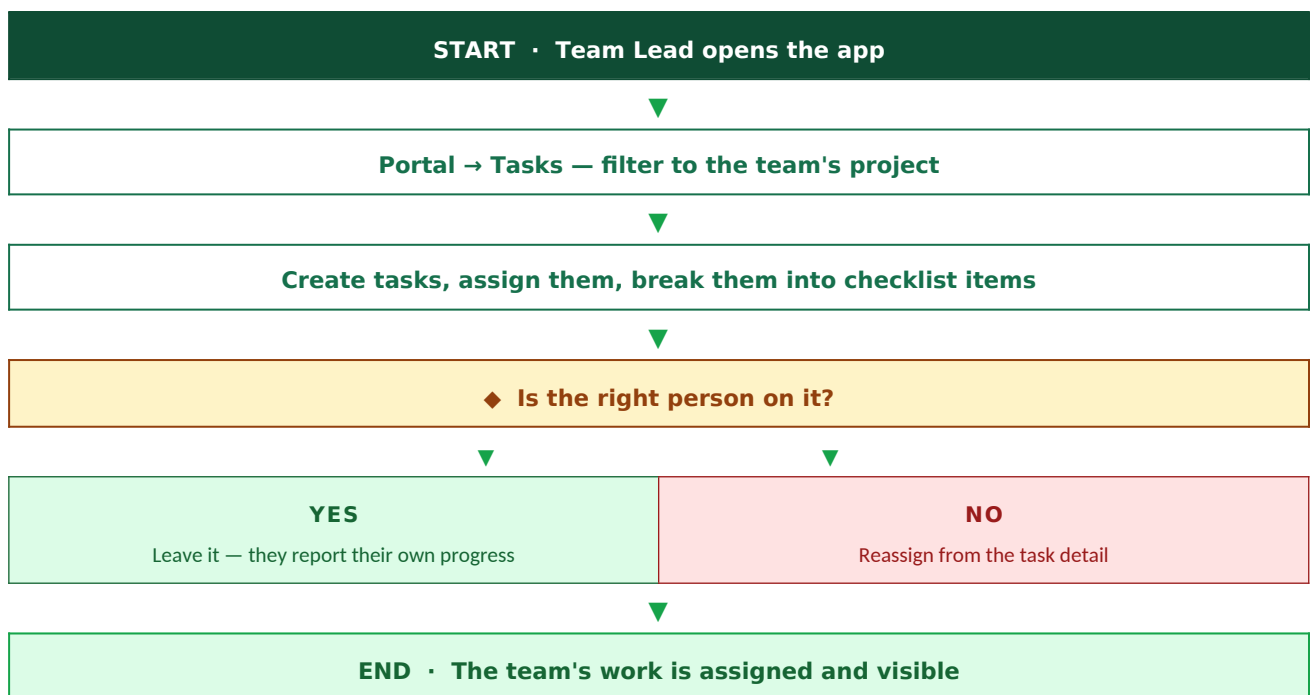

1. Give somebody a piece of work

1. Portal → Tasks → New Task.
2. Write a title that says what "done" looks like.
3. Attach it to the project it belongs to and choose the assignee.
4. Set the priority and the due date. Tap Create task.
5. Open it again and add checklist items to break it down.

2. Run the board

1. Portal → Tasks. Filter to your project.
2. Watch the Status column: assigned → in progress → review → completed.
3. Tap a task that has stalled and leave a comment on it, or reassign it.
4. On your phone, Modules → Tasks moves any task one step along.

6 Your Day, End To End

7 Quick Reference

I want to...	Go here
Create a task	Portal → Tasks → New Task
Reassign a task	Portal → Tasks → the task → Assignee
Break a task down	Portal → Tasks → the task → Checklist

I want to...	Go here
Move a task along, on the phone	Modules → Tasks → tap the row
Book a meeting	Portal → Calendar → New Event

If something does not work

What you see	What to do
"Invalid email or password"	Tap the eye icon and check what was typed — the keyboard often capitalises the first letter. If it still fails, your account may not be created yet.
"This account is not active"	Your login works but your record has been switched off. Ask HR.
"Set a screen lock on your phone first"	Add a PIN, pattern or password in your phone's settings, then come back.
"Set up Face ID, Touch ID or a fingerprint first"	Save a fingerprint in your phone's own settings, then come back.
The fingerprint box appears and you close it	Nothing is recorded. Tap Check in again.
A number on Home shows a dash (—)	That one item could not be read. Pull the screen down to refresh.
